nexus news – June 18

*Dates for the week
ahead:*

*Cake Sale Friday pm
from 2.15 in Café
Area.*

Another amazing and busy week at Nexus, and another new bus from Lord's Taverners. Cathryn and Barbara went to collect the bus from London on Wednesday evening with one of our Governors.

The Upper School visited Chessington World of Adventures on Wednesday as part of the Rotary Club day out. It was a fantastic day, and

apart from coming back soggy and tired it was enjoyed by everyone that attended. It was lovely to see so many parents coming along to support and getting involved by jumping on the rides. A big thank you to Peter for organising the day.

Ashley and Matthew particularly enjoyed seeing all the different animals during the safari and in the zoo.

When I wrote last week I mentioned the developing allotment space in school. I wanted to share the plans that we have for this space which include a potting area, sheds, a green house, raised beds and sensory areas. We will also be starting work on our woodland area behind the school.

Please remember that there will be a coffee/tea morning on Friday 29th June from 9.30-10.30. If you have any questions that you would like answered at this meeting please email Sally Surin or Julie Jordan (by 27th June); Sally.surin@hotmail.co.uk or Julie-jordan2@sky.com

If you have not already done so please could you return your permission forms for the use of your child's image/media in or out of school. It's important that we have this information on file and up to date.

Have a good weekend

Scott Jarred - Headteacher

P1 news.

Our topic this term is summer, and we have chosen a book called "Picnic" which we are using as a theme for different activities. We are making our own sensory story with a range of props for children to explore. The children have already enjoyed listening to the story as well as filling their own basket with things they would like to take with them when we go out to the field later in the term for our class picnic.

Next week in food technology they will be learning how to make sandwiches and will continue to fill their basket with fun items for our story and our picnic.

In child initiated play some of the pupils have made their own game with a picnic blanket, play food and plates. They were imaginative and able to take turns and share the items with each other and were totally engaged throughout.

Once the boys had put out all the plates and the food they took turns sharing it out and eating the tasty snacks.

Lorna-P1

'Outside the Box'

We had a visit from 'Outside the Box' on Thursday and some of our students had the opportunity to work inside and sell some coffee and cakes.

This has been created by some enterprising nexus parents and is a great example of what I believe we should be aiming for in school in order to provide our pupils with some work based learning or work

experience. Please take a look at Facebook, twitter or Instagram to learn more, or you may want to book them for an event!

Primary clothing

If you have any spare clothing at home that you would like to donate to the school for use when pupils are taking part in art, messy or sensory play please send these in. We are particularly looking for old clothing for our younger pupils.
