10.30 Parent's
Coffee Morning
with Scott

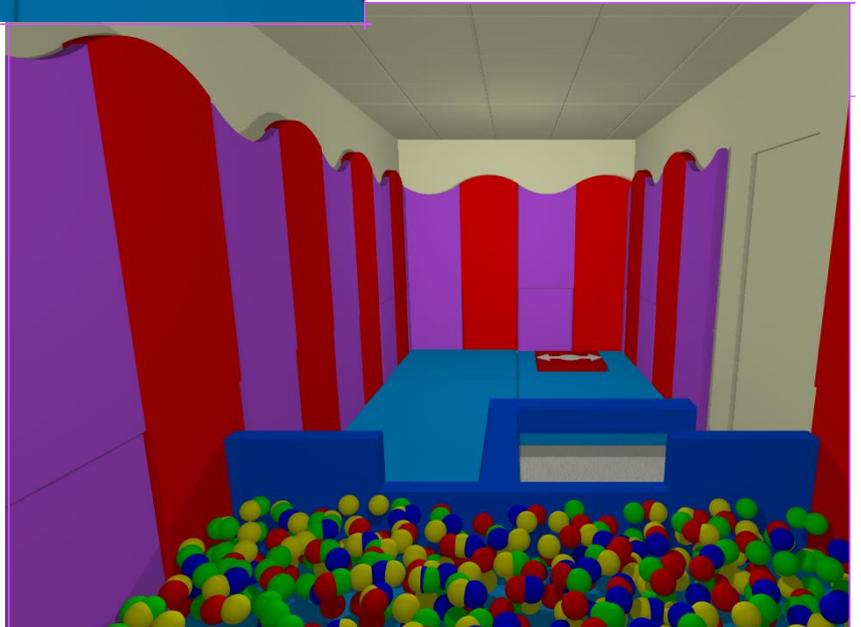

29th June 2.30 pm
Rehearsals School
Hall for Disability
Day Event 15th
July

There is so much happening in school at the moment and despite coming to the end of the academic year it is one of the busiest times in a school, especially at Nexus.

There have been a number of sports competitions over the last few weeks and more to come before the end of term, and I will share some of these with you over the coming newsletters.

Next week the weather is forecast to be extremely hot. Please ensure that your child is wearing suitable clothing, brings a hat for outdoor play, and has sun cream (please also apply sun cream before coming to school). I know that this is not always possible and therefore we will do our best to keep pupils out of direct sunlight on the very hot days.

We have approved the plans for our new soft play room which we hope will be installed over the summer holidays. As well as what can be seen in the pictures below there will also be a range of other resources and equipment to use.

Have a good weekend

Scott Jarred - Headteacher

A week in the life of Sensory 1

Hello and welcome to Sensory 1. Our topic this term is Seashore, we have been and will continue to be developing our exploratory skills within our topic 'seashore' this term.

On a weekly basis we keep our days very consistent so that we are all aware of what is going on and nothing surprises us. This week we have been working hard in the hydro therapy pool as well as in the multi-sensory room. Here you can see how much we enjoy the hydro pool

Also in class we have been exploring this term's sensory story which is 'A Teddy Bear's Picnic'. Going on an adventure with Bertie the monkey and finding the perfect spot to picnic whilst encountering a range of sensory mediums on the way. Here are a few pictures of Bertie and some pupils on their adventure.

Other activities that we have enjoyed this week have been foot painting to create our ocean background and sensory star fish within our art sessions. We also enjoy Daily physiotherapy and Sensory Development session which include Sensology and Body Awareness.
