

### **Flamingo Class Term 3 Home Learning Challenges:**

Please find below a list of Home Learning Challenges based around our topic for this term 'On The Move'.

The idea of the challenges is to work on them across the term, sending in pieces of work when they have been completed in order for your child to share them with the class.

- Continue with reading a range of books – What is the most interesting/creative place you can find to read? Send in a photograph of you reading here!
- My Maths – Online Maths Learning. Class Teacher to set individual learning activities as required.
- Complete a Colour Car Survey. Can you put this information into a table to show how many colours of each car you saw?
- Make a Road Safety poster! Why is road safety so important?
- Collect different information and objects linked to transport and make them into a collage e.g. a train ticket, photos, leaflet.
